Robotic welding

YOUR RELIABLE PARTNER IN WELDING AUTOMATION

WHO WE ARE

Pavetech Co., founded in 2005, specializes in designing and manufacturing industry-leading robotic welding solutions for challenging environments, including the highly radioactive zones within nuclear power facilities. Our dedicated in-house engineering experts develop advanced robotic welding systems that meet the strict standards required by industries where utmost precision and reliability are essential.

For past 19 years, Pavetech successfully implemented various robotic welding systems to automate maintenance procedures within nuclear power plants. With a proven track record of excellence in the nuclear field, Pavetech is now seeking to expand its business to the international market, offering cutting-edge robotic welding solutions.
